and eagerness than heretofore displayed during the war. From a political stragetical and sentimental standpoint, the position of the Russian force and areal base is considered of paramount importance by the Japanese. It is known that the Japanese noose about the besteged city is gradually dightening. The Japanese guns are pouring fire into the diminishing circle, and it is felt that the critical hour is fast approaching. But the publichere is ignorant of the hour when the final assault will be made and also of the details of the work already done around Port Arthur. It is believed that the fire from the Japanese batteries will compel the Russian flect to leave the harbor and accept battle from Admiral Togo. It is becoming proverbial that the Japanese infantry will go anywhere and will refuse to relire no matter how great their losses may be. It is believed that Port Arthur could have been taken before this time with a heavy sacrifice of life, but it is evident that the nulltary leaders are working to effect the reduction and capture the fortress with the minimum loss of life. There will be no charges of great masses of infantry until the artillery has finished the task of silencing the Russian guns. A story is current to the effect that the Emperor shall be effected with the smallest possible sacrifice of life, hence the care and precision taken by the Japanese in approaching the Russian defenses and the extensive use of the larger engines of the war with which to clear the way.

HALTING FOR SUPPLIES

No Apparent Foundation for Sensational Report of Battle Near Hai Cheng.

(By Associated Press.)
ST. PETERSBURG, August 4.—A rumor is current that a battle is in progress north of Hal Cheng.

ST. PETERSBURG, August 5-320 A. M.-The fact that there is no further news from the front beyond General Zassalitch's account of the fighting at Si Mou Cheng on July 3ist, bears out the Associated Press explanation that the Japanese are halting to bring up supplies, especially ammunition, of which a modern engagement entials, an extravagant expenditure, and without which it would be impossible even for a victorious army to follow up its success: ST. The official estimate of the loss of ever 1,000 agrees with the figures in a belated dispatch from Liao Yang, referring to the same fighting, and which also says that the Russians were fully prepared to hold their positions when commanded to retire, which was carried out in perfect every.

There is no apparent justification for such sensational reports. The best informed military authorities declare that there has been no fighting since the Russians fell back to Liandiansian, Anping and Anshanshan.

(By Associated Press.)

ST. PETERSBURG, August 4.---General Sakharoff reports that twenty-nino officers and over a thousand men were killed or wounded in the engagements of July 30th and July 31st, and that six guns were abandoned.

General Sakharoff's report gives details of the fighting about Dapoutza as transmitted by General Zassalitch, who says the operations were not decisive. The Lattic, the report says, began under favorable auspices for the Russlans, their nitillery being superior, but later the

"At 4:56 P. M., I received a report that a regiment posted at the extreme right flank had retired from its position in the mountains, having had its flank turned. Six disabled guns were abandoned. Two officers were killed and two wounded, and the commander of a battery was intured.

"The battery was completely shattered, but at the beginning of the action we succeeded in saving four guns, while four others were left on the field completely disabled. Of these four, however, two had to be spiked and abandoned, owing to lack of horses.

"With the view of distracting the attention of the Japanese from our right flank, I directed Colonel Lepovatz at 5 o'clock when the heat had diminished, to order the soldiers to take off their equipment and assume the offensive.

"To support this offensive movement, I ordered our batteries to open a hot fire on the ridges held by the Japanese. The fire of our guns, which had previously bombarded this foint, was murderous, and the Japanese sgain sustained many killed or wounded.

"Our attack in open astonished all beholders. Our men in this formation, advanced swiftly ecross the principal mountain range, rushing on both sides with fixed bayonets on the Japanese who were unable to sustain the shock and quickly avacuated the three crests they had occupied, I am informed by Major-Lordekipanitze that those who remained were bayonetted.

CONTENTION OF U.S.

Will Hold That Food Stuffs Not Subject to Seizure Except Under Certain Circumstances.

(By Associated Press.)
VLADIVOSTOK, August 4.—The prize court has decided to confiscate such portion of the cargo of the Portland and Aniatic Line steamer Arabia as was consigned to Japanese ports, namely, 5.900 pounds of flour and the railroad equipment, this portion constituting less than half the bulk and weight of her cargo, the remainder consisting of 142,500 pounds of flour consigned to Hong Kong. The confiscated portion of the cargo is now being unloaded. As soon as this is completed, the steamer will be released.

(By Associated Press.)

WASHINGTON, D. C., August 4.—The Araba case is likely to develop strongly one important contention on the part of this government, namely, that food stuffs on a neutral ship are not subject to selzure, even in the war zone, provided they are not intended for the use of the army or navy of a beiligerent. It has been supposed that the Russian government itself subscribed fully to this rule, and that is why Washington is waiting to learn what unknown and qualifying conditions were developed before the Vladivosiok prize court to justify the confiscation of American flour consigned to 1. panese individuals, and not to the government nor intended for its use. Counsel for the Portland Milling Company were before the department yesterday and insisted that the entire cargo of the vessel was individually consigned, and, consequently, that there was not one pound of contraband goods liable, to one pound of contraband goods liable scizure aboard the ship.

Heptasophs Were Happy.

The Heptasophs excursion to Ocean View yesterday, going from this city to Old Point via the Chesapeake and Ohio Railway, was one of the largest of the entire season. It required two trains, one of ten and the other of eight coaches, to transport the wise men. At a moderate estimate fully one-thousand persons made the trip down. The party returned to the city last night after a pleasant day.

Sight-Seeing Visitors.

The Atlantic Coast Line Rallway yes-erday brought to this city an excursion of nearly five hundred persons from aimts between Battleboro, N. C. and imporia, Va., embracing both whites and negroes. The visitors spent the day ught-seeing and shopping, and returned in the evening to their homes.
